Committed functionality, easy usability

位置決め、工程監視をサポート

Providing support for positioning and process monitoring

MFS-1 (B)

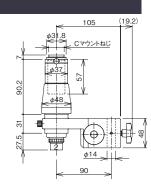

低価格でシンプルな鏡体ユニットです。 Cマウント部は50mm まで伸ばせます ので、全長の伸縮により実視野やモニター 倍率を調節することができます。

(P69 の鏡筒データ目安表参照)

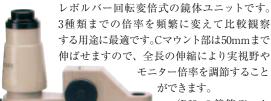

A low price, simple scope unit.

The C-mount is extensible up to 50 mm, so full extension or retraction enables adjustment of the field of view and monitor magnification. (Refer to lens barrel data guide table on P69.)

専用Cマウントアダプター付属 対物レンズは自由に1ヶ選択し付属 Special C-mount adapter included Select from any single objective lens

MRS-1(B)

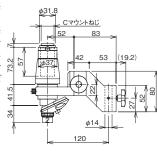

(P69 の鏡筒データ 目安表参照)

This is a revolver magnification switching type scope unit.

It is ideal for comparative observation, where magnification must be switched frequently between up to three types. The C-mount is extensible up to 50 mm, so full extension or retraction enables adjustment of the field of view and monitor magnification.

(Refer to lens barrel data guide table on P69.)

専用Cマウントアダプター付属 対物レンズは2×~10×で自由に3ヶ選択し付属 Special C-mount adapter included Free selection from three 2× to 10× objective lenses

光学倍率0.7×~4.5×のズーム変倍式鏡体 ユニットです。解像力に優れた長作動距離 (WD93mm)の鏡筒は、装置組み込みにも最適

> です。専用リングLED照明装置 ML-2との組み合わせが好評

(P69 の鏡筒データ目安表参照)

Zoom magnification scope unit with optical magnification 0.7× to 4.5×. The barrel lens, with its excellent resolving power and long working distance (WD 93 mm) is ideally suited for mounting on a device. The combination of this unit with the special ring LED illumination device ML-2 is particularly popular. (Refer to lens barrel data guide table on P69.)

専用Cマウントアダプター付属 ズームレンズ0.7×~4.5×付属 Special C-mount adapter included Zoom lens 0.7× to 4.5× included
