

‘JUN-KI-SUI’ offers double role.

NO

1

Filling oxygen by aseptic processing.

Enough oxygen to drink,
abundant oxygen water

Oxygen can change our modern life.

Oxygen is essential for human body. But modern life cycle such as lack of exercise and promiscuous eating habits are main caused for lack of oxygen in a body. Drinking alcohol and smoking is can be one of cause for it. Let's Take abundant oxygen and make body and mind fresh.

Refresh

■ Sports supplement drink

It can resupply lost fluid water and oxygen quickly.

■ For study

Best suit for long time study. It reduces a fatigue.

Health

■ As a support of diet

Only for losing weight or rather become a beauty and healthy body.

■ For smoker

Take abundant oxygen.
It can act against active oxygen that generated from smoking and much stress.

Assure

■ Nonbacterial water can be used safely for the baby.

Changing Tap water into nonbacterial by using aseptic processing (ozone plus activated carbon) enable to be used at ease for the baby.

Structure of abundant Oxygen water (what is the aseptic processing purification!?)

World's first

Using a patented original technology!! JUN-KI-SUI produces comfortable, health and safety life.

Using our patented ejector technology allows water, treated by our own original process, to be added to much more oxygen. JUN-KI-SUI is a purified and abundant oxygen water (3~5mg/L) which is dissolved five times as much oxygen as usually amount of oxygen in tap water (15~20mg/L).
