

Memory Modules

DDR4 Memory Modules

Transcend's new DDR4 memory modules are constructed with top-quality DRAM chips that deliver stable performance and durability. With advanced DDR4 technologies, Transcend's DDR4 memory modules utilize higher density components, allowing capacity options ranging from 4GB to 32GB. Offering high speed transmission of 2133MHz and up to 17GB/s of memory bandwidth, Transcend's DDR4 DIMMs comprehensively promote the system performance.

DDR4 288-PIN Unbuffered DIMM

| | |
|------------------------|---------|
| Speed | 2133MHz |
| CAS latency | 15 |
| Voltage at rated speed | 1.2V |

Ordering Information

| | |
|---------------|------|
| TS512MLH64V1H | 4GB |
| TS1GLH64V1H | 8GB |
| TS2GLH64V1B | 16GB |

DDR4 260-PIN SO-DIMM

| | |
|------------------------|---------|
| Speed | 2133MHz |
| CAS latency | 15 |
| Voltage at rated speed | 1.2V |

Ordering Information

| | |
|---------------|------|
| TS512MSH64V1H | 4GB |
| TS1GSH64V1H | 8GB |
| TS2GSH64V1B | 16GB |
