**For Plastic Cover**

**For Plastic Cover with Lip**

RoHS 10

**For Plastic Cover**

**CTRTT**

**For Plastic Cover with Lip**

**CTRTR**

**Material Properties**

Item	TPE	Adhesive
Specific Gravity	0.95	-
Heat Resistance	+135°C	+88°C
Low Temp. Resistance	-60°C	-15°C
Compression Set	15~25%	-

ⓈTPE does not produce dioxin when burned.

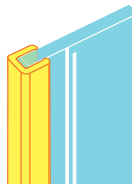

Type	Material		Color	L (m)	Applicable Plate Thickness	Unit Price		
	Main Body	Adhesive				1m	3m	5m
CTRTT	Thermoplastic Elastomer (TPE)	Sealant	G (Gray)	L1 L3 L5	2.5~3.5			
					4.5~5.5			
CTRTR	Thermoplastic Elastomer (TPE)	Sealant	Y (Yellow)	L1 L3 L5	2.5~3.5			
					4.5~5.5			

**Ordering Example** Part Number - Color - L  
 CTRTT3.0 - G - L1  
 CTRTR5.0 - Y - L3

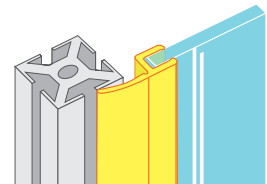

**Example**

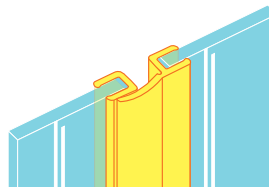

**•Panel End Protection**  
 CTRTT is attached on the panel edge to prevent interference and alert a collision.

**•Filling a Gap on One Door**  
 CTRTR is attached to the panel edge of one door. Suitable for applications such as filling a gap with an object and insulating from splash and sound.

**•Filling a Gap between Both Doors<sup>①</sup>**  
 CTRTT and CTRTR are attached to the panel edge of both doors, filling a gap between panels.

**•Filling a Gap between Both Doors<sup>②</sup>**  
 CTRTR is attached to the panel edge of both doors, filling a gap between panels. (Either side can be opened first.)
